

Unit 2: The Earth, Our Home

Class 3: Social Science

Answer the following:

1. Why does life exist on Earth?

The temperature and atmosphere of the earth make life comfortable for the organism.

2. What is a map? How is it more useful than a globe?

Map: A map is a representation or drawing of the earth's surface or a part of its area drawn on a flat surface.

Map vs Globe: A map is a graphical representation of the Earth on a flat surface like paper, whereas the globe is a spherical structure shaped like the Earth. This makes a map more useful as the researchers can study the minutest details of the geographical features.

3. What are continents? Write the names of the seven continents.

Continents: A continent is a large solid area of land.

Seven Continents: 1.Asia, 2.Europe, 3.Africa, 4.North America,
5.South America, 6.Australia, 7.Antarctica
